AMAN KUMAR

Backend Engineer (SDE 2) | Node.js, Go, TypeScript | Microservices & Distributed Systems
Bengaluru, India (open to remote) | +91 96825 60897 | isharaman8@gmail.com | linkedin.com/in/aman-kumar-71b655158 | github.com/isharaman8

SUMMARY

Backend engineer with 4+ years of production experience. Currently an SDE 2 owning the promotion, price and customer services in a 500+ microservice platform (Go, Node.js/Fastify). Known for measurable results: cut email volume 60% and processing time 50% with a document-management platform, cut approval delays 35% with workflow automation, and improved data-sync performance 25% on a FastAPI integrations platform. Comfortable owning a service end to end, from API design and data modeling to production incidents.

CORE SKILLS

Languages	Go, TypeScript, JavaScript, SQL, Python
Backend	Node.js (Fastify, NestJS, Express), FastAPI, REST API design, microservices, JWT and RBAC, third-party integrations
Data	PostgreSQL, MongoDB, schema design, query optimization, indexing
Cloud & Tooling	AWS, Docker, Linux, Git, CI/CD
Frontend	React.js, Next.js

EXPERIENCE

Software Development Engineer II (Backend) | KPN Farm Fresh 06/2025 - Present | Bengaluru

- Own the promotion, price and customer services in a platform of 500+ microservices (Go, Node.js/Fastify), including their APIs and third-party integrations.
- Diagnose and resolve production incidents and ship performance fixes that improve uptime and stability.
- Turn requirements from product, frontend and operations teams into backend designs and deliver them on schedule.

Software Engineer | SenseHawk 09/2022 - 04/2025 | Bengaluru

- Built and scaled the backend of an organization-wide Document Management System: **60% less email volume, 50% faster document processing**.
- Designed multi-stage approval workflows with role-based access control and audit trails: **35% fewer approval delays** while meeting compliance requirements.
- Optimized a FastAPI integrations platform: **25% faster data synchronization** across internal services.
- Worked with cross-functional teams to deliver backend services: **20% higher client satisfaction, 30% less downtime**.
- Contributed to architecture discussions, API contract design and code reviews.

Instructional Associate | Masai School 03/2022 - 09/2022 | Bengaluru

- Mentored students on the MERN stack and reviewed their code and API designs; 85% completed their projects and assessment scores rose 30%.

SELECTED PROJECTS

Restaurant Management App (NestJS, PostgreSQL, Svelte): order, billing and user-admin services; 20% fewer order errors, 40% faster load times.
Finance Management App (Fastify, MongoDB, Next.js): REST APIs, aggregation queries for spending insights, offline-capable PWA client.

EDUCATION

Bachelor of Arts, Govt. MAM PG College, Jammu (2018 - 2021) | **Full Stack Web Development (MERN)**, Masai School (2021 - 2022)
